**Flexcon to Showcase its Extensive Range of Innovative Supply Chain Solutions at ProMat 2023**  
*Visit Booth #S1822 to Tap Into Over 50 Years of Expertise in Supply Chain Optimization*

BERKELEY HEIGHTS, NJ, March X, 2023 – Flexcon, an industry leader that has been optimizing supply chains with its material handling solutions for over 50 years, will be showcasing its latest innovations in Booth #S1822 at ProMat, March 20-23, 2023 in Chicago, IL. Visitors to the Flexcon booth will find dozens of styles of plastic containers, bulk boxes, pallets and accessories that solve a range of challenges faced by manufacturers, distributors, consultants, dealers and logistics companies.

“Over 80% of the automation displayed at the show requires containers to operate and the container used has a significant impact on the whole system,” notes Ken Beckerman, Flexcon president and CMO. “At Flexcon, our experienced team understands that with the right container, automation can operate optimally at higher speeds and with fewer errors.”

Utilizing advanced technologies in plastics and coated treated tempered hardboard, Flexcon designs a wide variety of products with these materials that will be on display at their booth including:

- Products used in carousels, vertical lifts, ASRS and Autostore Systems.
- A full line of Autostore accessories including cladding/walls, dividers and clear panels.
- A low-cost line of plastic warehouse bins that ship flat, assemble easily and are the lowest cost plastic bin on the market.

“We currently serve more than 30% of ProMat’s exhibitors with the most efficient and cost-effective products,” says Beckerman. . “Virtually any attendee will find it beneficial to visit us at this year’s show where we can work together on a plan to address their challenges and upcoming projects.”
